Goods and Services
freight transportation by truck [039]

Jurisdiction
 US

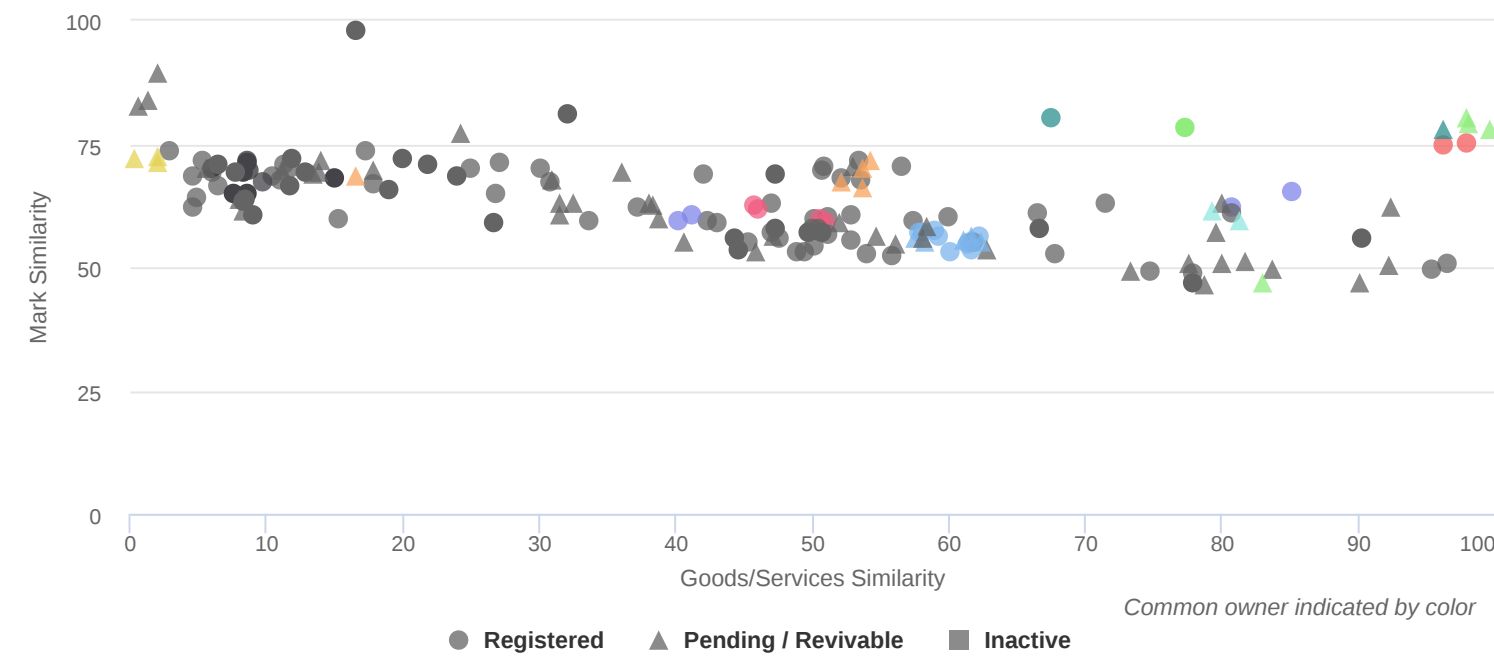

08/09/2024 04:48 PM CDT

We analyzed a search for the mark **OPTIMUS PRIME** (the "Searched Mark") for freight transportation by truck in class 039 (the "Searched Goods").

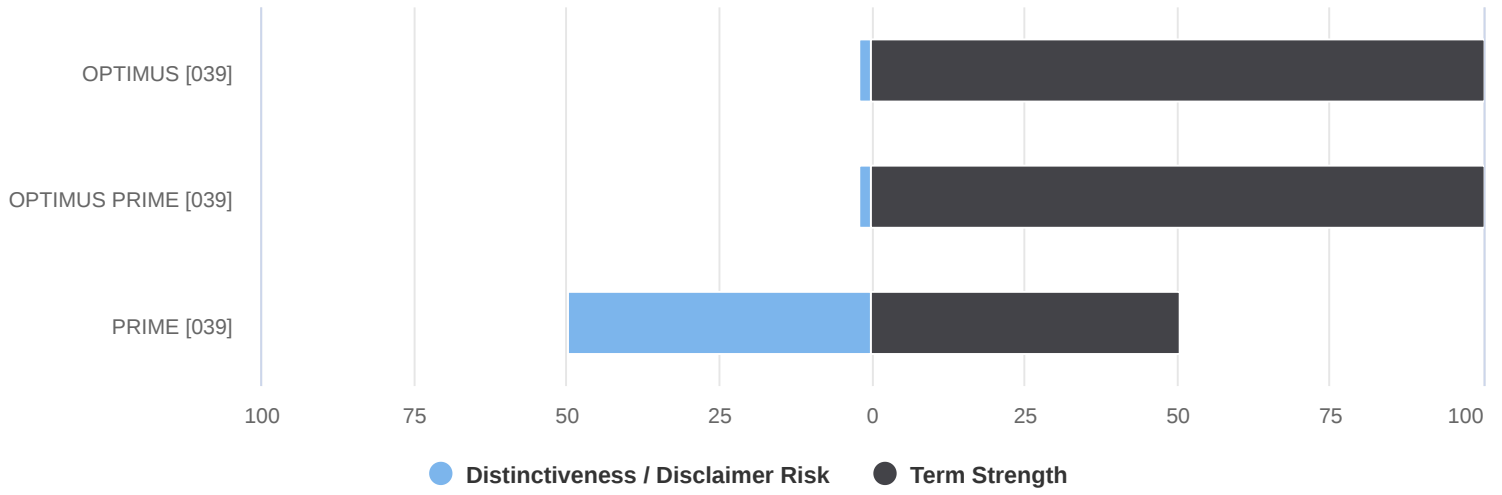

PRIME, **PRIME**, and **PRIME** owned by Amazon Technologies, Inc. pose a high risk of confusion with the Searched Mark. The dominant term "PRIME" is identical in both the Searched Mark and these other marks, which increases the likelihood of confusion. The goods are also highly similar, as both involve freight transportation services, albeit with slight variations in the modes of transportation (truck, train, and air for the other marks versus truck for the Searched Mark). This overlap in services further elevates the risk of confusion. This filing has been involved in 1 opposition proceeding.

This search also revealed a common law user of the desired mark, OPTIMUS PRIME FREIGHT LLC, located in Fort Worth, Texas with business records indicating the users is also in the freight and transportation sector, further suggesting that this mark is not available for use or registration.

001 adhesives and glues for industrial use in the form of spray adhesives, glue tablets and glue sticks for industrial use with glue gun, and chemical solution for expanding foam being a foaming agent; degreaser, namely, degreasing preparations used in manufacturing processes for use on machinery, metal, or common surfaces

003 all-purpose cleaners for household and commercial use, abrasive soap being granulated soap, shower gel, hand cleansers and lotions, stain remover, and all-purpose cleaner for other household surfaces; recurring pads being reusable cosmetic pads

005 all-purpose or household-use disinfectant, disinfectant sanitizer being hand-sanitizing preparations, antibacterial alcohol skin sanitizer gel, sanitizing preparations for household use, sanitizing preparations for use in institutional and industrial areas and cloths impregnated with disinfectant preparations, foam disinfectant, hand antiseptics

006 steel strap being used for load containment or load handling in an industrial environment, steel wire, metal staples for construction or industrial use; sheeting being steel sheets; high density foil honeycomb pallet being loading and unloading pallets of metal; belts of metal for handling loads

007 semi-automatic and automatic stretch film wrappers, semi-automatic and automatic horizontal stretch wrappers and shrink wrap wrappers all being automated wrapper in-feed machines or stand

EMBALLAGES JEAN
CARTIER INC.

2325, boulevard Industriel
Saint-Césaire, QC J0L1T0
CA

alone, box sealers being carton sealing machines, belt strapping machines being used to bundle goods or identifying a load, box forming machines, preparation systems comprising automated wrapper in-feed machines, packaging machines, cartoning machines, packaging void filling machines, package production and protection machines being paper void-fill systems, on demand foam packaging production, on demand inflatable plastic bags, on demand inflatable bubble wrap production for void fill, on demand tailored box forming, on demand production of custom mailers, palletizers being material handling and stacking machines onto a pallet, stretch or shrink wrapping machines being automated wrapper in-feed machines; staplers being manual staplers, pneumatic staplers, power-operated staple guns; packing stations for preparing packages consisting primarily of ergonomic tables with storage for boxes, envelopes, labels, packaging accessories; conveyor belts

008 belt tensioners, combined belt tensioners and crimps all being wire crimpers, staplers being hand-powered staple guns

009 sensors and recorded software for monitoring the settings and performance indicators of semi-automatic and automatic stretch film wrapper machines, sold as a unit; protective clothing for eye and face protection, respiratory protection, hand protection, ear protection, head protection, first aid and anti-hair loss, namely, protective padded clothing for protection against bodily harm and

blunt force trauma, clothing and garments, disposable garment for protection against fire in industrial and manufacturing environments, protective helmets, clothing for protection against chemicals, hazardous particulate; protective clothing and protective suits used in a medical context, namely, protective clothing especially made for use in laboratories gloves for protection against accidents

010 procedural surgical masks; protective clothing, namely, protective coveralls for medical use; protective clothing, namely, hair nets being protective head wraps for medical use; protective suits, namely, protective coveralls for medical use, protective gowns for medical use; manual stretch film being permeable plastic films for medical use; sheeting being medical table sheets for examining tables and operating tables; bags and standard polythene bags for transmitting medical specimens; gloves for medical purposes; air cushions for medical purposes; recurring pads being heating pads for medical purposes; belts for medical purposes; all of the foregoing used in a medical context

016 manual stretch film being plastic film for wrapping and packaging mechanical stretch wrap being plastic film for commercial or industrial use with wrapper machines, stretch cover and retractable cover being protective plastic film for pallets for commercial or industrial use, polyolefin shrink wrap being plastic packaging wrap for commercial or industrial use, polyethylene shrink wrap being plastic packaging wrap

for commercial or industrial use, polyolefin shipping shrink wrap being plastic packaging wrap for commercial or industrial use, sheeting being plastic sheets for packaging, tubing being mailing tubes of cardboard, plastic bags and standard polythene bags for packing, air bubble packaging being plastic bubble packs for wrapping or packaging, plastic or paper envelope and bubble bag for packaging, air cushion being cushioning or padding made of paper or plastic for packing purposes, inflatable bubble being plastic bubble packs for wrapping or packaging, suspension and retention packaging being plastic shipping and storage boxes, gummed paper tape being water activated with or without fiber glass, ethical ribbon being office machine ribbons, thermal transfer ribbon, corrugated cardboard in roll, corrugated boxes, corrugated sheets and other products being corrugated cardboard, paper and containers, flat cardboard, non-slip sheet being plastic or paper sheets used to prevent slippage of products on pallets, plastic for pallet being plastic wrap for use around pallets or product for the purpose of shipping, transporting or storage, kraft paper, filler paper, non-printed newspaper, specialized paper, paper bags, garbage bags, paper napkins, paper tablecloths; office or industrial staples and staplers

017 profiled rubber corners; adhesive tape; stretch cover and retractable cover being protection film covering for automobile exteriors; polyolefin shrink wrap being poly-olefin film with a rubber

adhesive used to protect surfaces; polyethylene shrink wrap being high-density polyethylene film with adhesive back to be used in cardboard and corrugated containers and boxes; sheeting being plastic sheets for use in the manufacture of displays, signs and packaging; tubing being flexible tubes of plastic; bags, envelope and bubble bag being rubber bags and envelopes for merchandise packaging; suspension and retention packaging being commercial packaging materials in the nature of corrugated plastic bins; construction-specific polythene, namely, plastic sheeting used in the construction industry as a vapor barrier, unfitted covering sheets made of polyethylene and other polymers for storing and transporting lumber, building materials and other similar commercial and industrial products; insulating gloves

020 packing tables, packing stations for preparing packages consisting primarily of desks and packing containers of plastic material; air cushions, not for medical purposes; recurring pads being self-adhesive polyurethane pads for placement on the underside of electronics products to prevent sliding and/or scratching

021 coffee glasses; brooms; cleaning cloths; toilet paper dispensers and soap dispensers; disposable latex and nitrile gloves for general use; recurring pads being reusable cleaning pads

022 belt, not of metal, for handling loads, ropes, string

035 laboratory packaging optimization services, namely, consulting and engineering services offering the best combination of packaging products for companies depending on the transport, handling or storage conditions they will face; laboratory packaging optimization services, namely, simulation and test services for transporting packaging or parcels through impact, vibration, drop, temperature variation and compression tests; laboratory packaging optimization services, namely, production of report of the variation of material, costs and ghg of optimized packaging; laboratory packaging optimization services, namely, services for evaluating the productivity of tasks related to the packaging of goods and evaluating the ergonomics of workers assigned to packaging stations

037 repair of packaging equipment, namely, semi-automatic and automatic stretch film wrappers, semi-automatic and automatic horizontal stretch wrap machines, shrink wrap wrappers, box sealers, strapping machines for belts, box erectors, and repair of packaging equipment in the nature of preparation systems for production and protection of packages, namely, palletizers, stretch or shrink wrapping machines; laboratory packaging optimization services, namely, consulting and engineering services offering the best combination of packaging products for companies depending on the transport, handling or storage conditions they will face; laboratory packaging optimization services, namely, simulation and test services for

transporting packaging or parcels through impact, vibration, drop, temperature variation and compression tests; laboratory packaging optimization services, namely, production of report of the variation of material, costs and ghg of optimized packaging; laboratory packaging optimization services, namely, services for evaluating the productivity of tasks related to the packaging of goods and evaluating the ergonomics of workers assigned to packaging stations and installation, maintenance and repair of packaging machines

039 warehousing services, namely, distribution, pick-up, packing for shipment and delivery of industrial packaging products, packaging equipment, and health and safety products for others; distribution services, namely, delivery of industrial packaging products, packaging equipment, and health and safety products for others; warehouse storage; laboratory packaging optimization services, namely, consulting and engineering services offering the best combination of packaging products for companies depending on the transport, handling or storage conditions they will face; laboratory packaging optimization services, namely, simulation and test services for transporting packaging or parcels through impact, vibration, drop, temperature variation and compression tests; laboratory packaging optimization services, namely, production of report of the variation of material, costs and ghg of optimized packaging; laboratory packaging optimization services, namely, services for evaluating the
